<https://rgpc.ca/events/delirium-workshop/>

This workshop is provided by the Hamilton Health Sciences Hospital Elder Life Program. It is designed to meet the course requirements of the **Geriatric Certificate Program**.

Cost: \$150

Delirium Prevention and Management in the Elderly Virtual Workshop

LEARNING OBJECTIVES

At the conclusion of this learning activity, the participants will be able to:

- Describe the core features of delirium and understand how to employ delirium screening tools.
- Identify a range of delirium prevention best practice guidelines.
- Explain how family and caregivers can help to reduce the risk of delirium for seniors in the community.
- Describe delirium prevention strategies that can be implemented in the daily routine care of their older adult patients.
- Identify several modifiable delirium risk factors and accompanying interventions that support a delirium management plan.
