

ENHANCING CARE FOR OLDER ADULTS LIVING WITH FRAILITY

HAMILTON NIAGARA HALDIMAND-NORFOLK BRANT BURLINGTON WATERLOO-WELLINGTON

ABOUT US WHAT WE DO

The Regional Geriatric Program Central (RGPC) is dedicated to improving the care and support for older adults living with frailty within our region.

We are a central hub for expertise and collaboration in geriatric care among healthcare providers, community organizations and others.

The RGPC supports specialized geriatric services, provides educational resources, and coordinates care to meet the needs of older adults and their care partners.

OUR MISSION

Promote a system of health care that optimizes the health, independence and quality of life of frail seniors based on evidence-informed practices.

OUR VISION

All frail seniors will have optimum health and will have access to specialized geriatric services.

SPECIALIZED GERIATRIC SERVICES

We help coordinate specialized geriatric services to support the care needs of older adults living with frailty within our region.

CENTRAL CLINICAL INTAKE

We lead a Central Intake service for Geriatric Medicine and Geriatric Psychiatry, Behavioural Supports Ontario, and GeriMedRisk.

EDUCATION

We offer a range of education programs to equip healthcare providers with the necessary skills to deliver exceptional care to older adults.
